Hello, everyone! I hope your year has been good so far!

I want to bring attention this month about Student Identification cards and vaping.

For Locklin Tech students, you are required to always have your Student ID card on your person while on campus. For Santa Rosa High School students, your Student ID card must remain visible, i.e., clipped to your backpack or shirt. These identification cards are a safety tool used to keep students safe. We have an open campus, so school staff and I need to be able to easily identify who is and is not allowed on campus.

We're seeing an increase in students vaping across the county. In addition to health concerns, this can lead to discipline through the school and law enforcement involvement. Nicotine products are prohibited for anyone under 21, and for anyone (regardless of age) on school grounds. Please talk with your students about the risks. We're seeing several students buying vape pens (both nicotine and THC) from people they meet online (through Snapchat, Instagram, etc.). Please continue to monitor what your student does online and who they interact with. Meeting strangers from the internet is never a safe idea, and students should be reminded of that often.

Let's have a good and safe February!

Sincerely,
SRO Richard Dunsford
