

October 2022 Newsletter from your SRO

Deputy Danny Tusler

It's the month of fall, Halloween, and cooler weather. The school year is cruising along, and it's almost time to trick-or-treat and visit the haunted houses and creepy forests. October is most well-known for Halloween festivities, but it's also a month loaded with other national and global celebrations, including Bullying Awareness, Breast Cancer, and National Principals Month.

Notable things on campus:

- There are new yellow markings which have been painted on the roadway in the middle of campus. The crosswalks are bright yellow now, so please be patient while students cross the roadways. Please refrain from blocking the bus ramp egresses so that buses do not have to wait.
- A big "thank you" to all students who have obtained a parking permit for their vehicle(s). I will be placing notices on vehicles to those who have not secured a parking permit from their appropriate school.

For everyone on campus, please be careful and vigilant while driving on the roadways. Be aware of other drivers who may be driving intoxicated or distracted due to Halloween scenery.

Stay safe, and Happy Boooalloween!
