

B4 THE DOOR

STEPS TO KNOW B4 YOU GO

With the installation of cameras outside single-entry doors at schools, there are 4 things you should know to reduce stress and increase safety.

BE...

1 READY: Show I.D. to the camera.

When you arrive at the school door, you will hold up your photo I.D. to a mounted “eyeball” camera. The door attendant will view your I.D. and decide if it’s safe to buzz you in based on established criteria.

2 CAREFUL: Don't open doors for others.

For safety's sake, we ask that you let safety trump good manners by never holding the door for others who have *not* gone through the camera I.D. check-point. Don't get mad, be glad if the door is shut on you. It means the other person is following the Be 4 safety steps to reduce safety risks for everyone.

3 PATIENT: New check-ins take time.

Manage your schedule knowing that this new check-in process takes a little more time. We don't want you stressed because you are on a tight timeline to make an appointment.

4 AWARE: These steps protect all.

We all can agree that we want our schools to be safer for the students and staff. When you follow the B4 the Door steps, it means you are doing your part. HIGH FIVE!
