

## **SANTA ROSA DISTRICT SCHOOLS**

### **GUIDANCE MISSION STATEMENT**

The mission of Santa Rosa District's school counselors is to provide a developmental and systematic comprehensive program that ensures academic, personal, social, career development, and community involvement for all students. Our goal is to assist all students in acquiring the skills, knowledge, and attitudes needed to become successful students, responsible productive citizens, and lifelong learners.

### **GUIDANCE PHILOSOPHY**

The Comprehensive Student Development Plan is an integral part of each school's instructional program. The Plan is developed with a commitment to individual uniqueness, an understanding of multicultural diversity, and the development of human potential.

The district's comprehensive school counseling program is designed, implemented, and managed by professionally trained and certified specialists who provide a systematic array of curriculum, interventions, skills, and knowledge in the areas of counseling, consultation, and coordination of guidance services. The implementation of the Comprehensive Student Development Plan acknowledges that guidance is no longer a service to be offered by one person, but a program coordinated in collaboration with other educators.

Our district and individual school programs play an integral role in providing a foundation for students to develop attitudes, knowledge, skills, and any personal habits that will enable them to become productive members of our diverse and global community.
